

The PTSA is pleased to offer the following After-School Programs for the Fall 2015 Session

- Arts & Logic - promotes critical and creative thinking in children through art instruction
- Chess 4 Life - provides chess education for kids of all skill levels
- Choir, Grades 3-5 - Students learn and perform popular rock, jazz, world and Broadway music
- Coding With Kids - designed for students with a range of programming experience
- Engineering For Kids - STEM education and fun through exciting hands-on engineering projects.
- Fast Track Math - dynamic balance of interactive instruction, practice, and problem solving application
- Grasshopper Enrichment - Students are inspired to write and "publish" their own book.
- Jet's Gymnastics - non-competitive boys/girls class to develop floor and bar/beam gymnastics skills
- Leap4Kidz - build and design with Lego and Technic Mindstorm bricks
- Museo Art - general art, drawing, painting, clay, mixed media & manga
- Small Hands Art (Drama) - not-for-profit organization that instructs students in the performing arts
- Techno Club - fun way for children to learn and grow their technology skills
- True Martial Arts - Tae Kwan Do and Arnis, self-defense, and confidence building
