CATALOG OF YMCA CLASSES

3D Art	Lets get the art to come off the page.
All Notions	Want to learn how to sew, make a scarf, hat, pot holder and so many other project choices? In this class well will sew, knit, and or weave and the projects are for all skill levels.
Amazing Aerodynamics	Learn about the principals of flight and aerodynamics each week while learning how to create a new paper airplane each week.
Art 101	Calling all artists! This course will explore different drawing techniques and tools/materials used for art.
Arts & Logic	Arts and Logic is a creative program that promotes hands on approach and critical thinking of kids through art instruction. The focus of our program is creating art- the thinking, planning and doing we view art as creative journey rather than as final product. Students create their own art focused on master artists, nature, elements of art and world around them. We provide all necessary materials to create masterpieces.
Board Games	Learn strategy and patience as you play various board games with and against your friends.
Brain Games	Challenge your brain with a variety of brain teasers and challenges.
Chess4life	Chess4Life offers an excellent after-school chess club with a focus on life skills. All students of any skill or age are welcome.
Coding with Kids	Join Coding with Kids and jump start your child's STEAM education with Coding with Kids' Little Coders class! Students will develop their computational thinking skills and build their own creative programs. Our curriculum combines a blend of fun activities - both "on-screen" and "off-screen" - to keep students engaged and excited about coding. This class will give students a strong foundation on coding basics, such as looks and conditionals, that can be built upon in our other classes. Kids will be introduced to these programming fundamentals in a variety of ways appropriate for this age group, from coding puzzles and board games to hands-on programming using online drag-and drop tools, such as Scratch (scratch.mit.edu).
Comic Collage	Ever wonder where cartoonists learned to draw? Well, in cartoon college we will learn some of the basics of this hilarious art form.
Cool Coloring	Relax and unwind in this coloring class.
Creative Writing	This class encourages the idea that every student is a writer in their own way. Each week the students will build their storybook they will keep onsite until the end of the session where they will be able to take it home.
Culture 101	Starting with a lesson of the world map, students will "travel" around the world, exploring the history of different countries and cultures while creating art projects based on that country.
Drawing 101	Want to learn how to draw or beef up on your drawing skills? We will learn different techniques and figures each week.
Duct Tape Art	Duct tape can create some of the coolest art pieces and functional art. Bring your creativity and tape ripping skills to this fun and inventive class.
Fast Track Math	Fast Track Math offers an after-school math program using world-renowned Singapore Math, brain teasers, and math games. Students work on their math skills, tailored to their individual levels and abilities, in a fun and encouraging environment! Students work at their own pace and earn points that they redeem for prizes three times a year.
Field Fun	Learn some cool new games that don't require any extra equipment, just an open field!
Gadget and Gizmos	Use a variety of everyday materials and transform them into creative machines which accomplish a simple task.
Get Crafty	Learn how to create art from all sorts of materials including soap, foam, popsicle sticks and more!
Gym Games	Learn a variety of new games from board games to puzzles to group games, anything you can think of.

Jet Gymnastics	Join Jet Gymnastics -This fun high-energy class will provide the fundamentals including running, jumping and climbing and we build on these fundamentals to improve our ability to pass over, under, around and through obstacles with more complex movements. Parkour is a system of fitness training endurance, and precision.
Magic 101	Come learn creative and new magic tricks to take home and show your friends
Mega Builders	K'nex, brainflakes, and Legos, oh my! Make a new mega build every week and see your creations come to life!
No Bake Delights	Make It But No Need To Bake It! All recipes require zero use of an oven!
Rainbow Looms	Learn different looming techniques and come home with loom jewelry you made!
Reading Corner	Come relax and read while building reading skills and vocabulary.
Sportsmanship	Discovering the importance of sportsmanship through interactive games, activities, and group work.
STEM	Maintain and enhance your volleyball skills with your peers and Y staff!
Volleyball 101	Do you enjoy relaxing and stretching? Then Yoga is for you! We will learn new Yoga poses each week with one of our Y instructors.
Waffles of the World	Waffles are a fun breakfast food but not every waffle has to be for breakfast! We'll be learning about other countries food and convert that into a waffle!
Wonders of the World	CoA class for all young adventurers! Learn about the classic wonders of the world as you create mini replicas of each design.
Yoga	Do you enjoy relaxing and stretching? Then Yoga is for you, will also learn new Yoga poses each week with one of our Y teachers
You're It	Run, Run, Run as you learn new tag games in this fun and heart pounding class.
