Game Design and Coding Club

Spring Session Class Details

Join our on-campus after-school coding workshop and watch your child bring their imagination to life with Microsoft MakeCode! In this hands-on program, kids will design and build their own video games, then play and share them with friends all while developing programming skills, problem-solving abilities, and critical thinking. No prior coding experience is needed, just basic familiarity with a keyboard and mouse. Register now and kickstart their coding adventure!

Who is our teacher: SK Aptacy is Assistant Center Director at Code Ninjas Sammamish. SK has volunteered with different youth organizations for many years and has a passion for child enrichment/education. SK has experience with python, java, data visualization and data analysis/research.

Who: 2-5 graders

Time: Friday at 4:00-5:00pm, 2/20-6/5, no class on 3/13, 4/17, 5/22, total 13 classes

Class Size: Min 12/Max 15

Material: No need to prepare anything! Teacher will provide all laptops

Location: School Portable room 159

Cost: $379 for 13 classes

(If we do not have enough volunteers and cannot open the class successfully, we will inform you and refund the full amount.)

No Volunteer, No Club: If no volunteer signs up at least 7 days before the class starts, we will announce that the class will not open and refund your tuition.

"We encourage each family sign in at least one spot volunteer if possible—volunteering is simple and flexible! You'll just help with sign-in and sign-out, and you're welcome to bring your laptop and work while you're there. Sign Up Here!

If you need financial support, please contact with school counselor,

Mrs. Muhlestein <jmuhlestein@lwsd.org>

Sign up deadline: 2/10 9pm
